

Passwordless Authentication Bundle

The passwordless authentication bundle provides a comprehensive solution complete with a biometric FIDO2 certified SentryCard, an NFC reader, and Secret Double Octopus software that works on both **PC or Mac**.

Lower Start-up Cost

Beginning at just \$7.75 per month, you can easily get started.

An Operational Expenditure

Experience predictable OpEx spending with a subscription pricing model.

Flexible Payment Options

A 36-month minimum term with flexible payment options.

Annual Replacement

Lost, stolen, or new hires? We'll include 10% of additional cards and readers each year at no cost!

Extended Warranty

Warranty included throughout the life of the subscription.

Additional Buffer Stock

You'll receive an additional 10% of initial card and reader inventory at no additional cost!

Absolute Proof-of-Identity

The root cause of today's breaches is the reliance on things that are known and can be shared, like passwords, pins, and multi-factor options. The SentryCard provides a highly secure, (decentralized) biometric assurance of who is accessing your building, IT, and OT systems.

Privacy Driven

SentryCard eliminates the risks associated with using biometric authentication by enrolling, storing, and matching the biometric data solely within the credential itself. No servers, databases or software is involved. SentryCard is compliant with GDPR, CCPA, & BIPA regulations.

Going Passwordless with Biometric Proof of Identity Has Never Been Easier!

SentryCard provides an immediate ROI while increasing security, mitigating risk and reducing complexity.

We Solve Every CISO's Concerns
